

Type SROB Sideways Roll Over Bin

The type SROB Sideways Roll Over Bin has been designed to tip in either direction. Side bearings prevent the bin being dislodged during tipping as is common with the roll over style bins. Fork Pockets are provided for end or sideways lifting and tipping. This bin is ideally suited to the food industry.

These bins are available in either enamel painted or Galvanised finish. Stainless Steel is also available on request. Ø150 front & rear swivel Wheels are supplied standard.

(Type SROB 12 shown)
